

## Why Participate?

Varsity College operates a Student Resource Scheme (SRS) to assist parents in the provision of some resources. Parents are directly responsible for providing student(s) with textbooks, other resources and a laptop or tablet computer at school. To assist parents, the executive group at Varsity College has chosen to utilise State Government contracts and its bulk buying power to provide parents with a cost effective alternative to purchasing these resources individually.

With the inclusion of the One2One program students also have the temporary use of a notebook computer, unlimited safe filtered internet, current and latest operating system and productivity software (Office 2016, Adobe Suite etc.), subject software, connection to the Varsity College network to access subject content, 5 day a week on site help desk support and various network resources including printers, projectors and TVs.

The operation of the scheme is supported annually by the P&C, and is managed by the school. Participation in the scheme is voluntary, and no obligation is placed on a parent to participate.

The Varsity College SRS is a single program and covers all necessary materials, hire and equipment: it cannot be customised in anyway.

## Our Program

The One2One program offers each student at Varsity College the opportunity to be issued with their own personal device. Continuing on from the successful expansion of the One2One Program in 2012 to students in Year's 7-12, students starting in Year 7 and Year 10 will be issued with a new device. The device can be used both at school and at home and offers parents a convenient and simple solution to their child's Technology needs.

Students in the One2One program benefit from Varsity College's ability to take advantage of the enormous buying power of the Queensland Government. Varsity College is able to purchase high performance commercial-grade computers that are designed to survive the rigours of school environments while remaining well below the retail cost of the same or similar devices.\*

\*only school owned, purchased and imaged devices are permitted to connect to Education Queensland's networks.

Dare to Dream

# Digital Platform

## Adobe Creative Cloud

Adobe Creative Cloud gives students access to the world's best creative tools used for graphic design, video editing and photography.

## Microsoft Office 2016/Office365

Microsoft Office 2016 is the latest suite of office productivity applications. Students currently have access to a range of applications in the Office365 suite.

## Autodesk Suite

The Autodesk suite of Computer Aided Drawing (CAD) tools allows students to design, visualize and simulate anything from blockbuster visual effects and buildings, to electric cars and the batteries that power them!

# The Device

## Hardware Specifications<sup>^</sup>

- Touch Screen Digitizer
- High Performance Intel Core Processor
- Solid State Hard Drive
- High Resolution WLED Screen
- Extended Battery life (approx. 7 hours)
- Bluetooth, Wi-Fi, USB3 and SD Card Access
- Current Industry Standard Specs

<sup>^</sup> Specifications subject to change

## Software Features

- Windows 10 Enterprise
- Office 2016 & 365
- Symantec Antivirus (updated daily)
- Specialist Subject Software Packages

## Connectivity

- On-campus ubiquitous wireless and high speed internet access is included in the One2One program.
- Students can connect to LED Screen TVs, projectors, printers and network resources.

# Peace of Mind

## Protection for Three Years

All computers in the Varsity College One2One program are covered against component defects for three years. The devices are fixed onsite by certified engineers and parents incur no parts or labour costs.

As participants in the One2One program, students have unlimited access to our onsite support desk. All hardware issues are logged with the vendor and are software issues are resolved within 24hrs.

## Accidental Damage Protection (ADP)

Accidents happen and ADP insures devices against day-to-day accidental damage. A small excess fee may apply in some cases.

## Absolute Computrace Security

If a Varsity College One2One device is reported to the police as stolen, it is locked and rendered useless remotely to protect sensitive data stored on the device.

## Hardware and Software Repairs

With access to onsite support and personalised service, One2One devices are supported with a 3-5 day turnaround once parts are ordered. [Students will be issued with a loan device to minimise disruptions to learning.] Devices can be reset to their original state within less than 24 hours in the case of software issues.
